

JAY BRAMHALL

has a Bachelor's in graphic design, which he has put to use in any way he can. Since 2011, he has had quite a few freelance gigs, trying it full time in 2013.

He has worked at the production level, running complicated printers and streamlining processes. He's tech savvy and has dipped his toes into programming, teaching himself Python for data analysis and Javascript for web development.

In brief, he has a broad set of skills, backed by an ever expanding amount of solid and lucrative experience that he would like to put to use for your company.

Jay also writes well, works diligently, has an eye for detail, and excels at arranging words into neat columns like this one.

Jay's hobbies include painting, photography, reading, growing succulents, playing indie video games, and building LEGO without the instructions.

InDesign:	+10 years	Python:	1 year
Digital Photography:	3 years	Onyx:	1 year
		FreeFlow:	1 year

Bachelor's of Fine Arts	Graphic Design
Xerox iGen 4:	Certified Level 1
HP Indigo 78xx:	Certified Level 1

EXPERIENCE:

FREELANCE — GRAPHIC DESIGN APPROX 3 - 4 YRS.

Most active from Nov. 2012 to Feb. 2014, but continue to take on occasional projects. During active years, clients mainly consisted of indie game developers, creating both branding materials and game assets. More current projects consist of branding: logos and business cards.

XEROX, INC., AUSTIN, TX — DOCUCARE ASSOCIATE NOV 2017 - PRESENT

Responsible for maintaining the 125 printers in the Texas HHSC Winters building. First contact with customers for troubleshooting issues. Responsible for keeping machines supplied and running, performing repairs or escalating when necessary.

CM MANAGEMENT: MAY 2014 - APR 2016

ERIN CONDREN, LLC, AUSTIN, TX — PRESS OPERATOR APR 2015 - APR 2016

Responsible for running and maintaining Xerox iGen4 and HP Indigo 7800 digital presses. Kept printing materials, press components, and press-side file system organized. Created instructional materials for press production. Assisted in new product testing, development, and streamlining. Aggregated data on reprinted items/product waste with Python and SQLite, then displayed it in spreadsheets for analysis.

MARCO FINE ARTS, AUSTIN, TX — PRINT OPERATOR MAY 2014 - APR 2015

Responsible for running and maintaining the company's large format printers (Epson 9900, 11880, and S70670), as well as handling artwork files on the computer system. Was expected to maintain the operation of ten printers at one time while diligently checking the quality of prints. Transferred to ECD when press position was offered.
